EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

AMENDMENT TO SPECIFICATION

On page 1, after the title, insert new section and paragraph:

CROSS-REFERENCE TO RELATED APPLICATIONS

This application is a divisional of U.S Patent Application S.N. 10/051,962 filed January 16, 2002.

AMENDMENT TO THE CLAIMS

Cancel claims 8-10.

Allowable Subject Matter

2. Claims 11-35 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art of record, either singly or in combination, fails to disclose the limitations of fabricating a high-voltage I/O nMOS transistor:

Art Unit: 2812

depositing a photoresist layer over the surface of said p-type semiconductor region, and opening a window in said layer, exposing the surface area between said n-wells;

implanting, at low energy, n-doping ions through said window, creating shallow n-doped layers under said surface, suitable as extended source and drain of said transistor; and

implanting, at high energy and high dose, n-doping ions into said p-type semiconductor through said window, creating a deep region having a net n- type doping between, and continuous with, said n- wells, and further creating a near-surface p-region having a doping concentration lower than that of the remainder of said p-type semiconductor region.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
